

# Do More with the Paradise Retail POS System

An omnichannel solution customizable to your needs!

## Simplify your day-to-day with one retail POS.

Paradise POS is a complete retail management system that empowers your business to increase revenue, control costs, improve productivity, and drive profitability.

## Why retailers choose Paradise:

- + Monitor and control costs
- + Completely customizable
- + E-Commerce, gift, and loyalty programs
- + Payment processing

### Mobile Bar Code Scanning

Eliminate the need for spreadsheets or manual data entry. Instead, efficiently perform inventory counts, receiving, locating items, or viewing stock levels.

### Age Verification

Protect your business by preventing the sale of age-restricted products to minors. Avoid hefty fines and mitigate your liability with reliable ID scanning.

### Scale Integration

Seamlessly integrate your POS system with NTEP-certified scales to accurately weigh and sell products to customers.

**Fully customizable  
POS systems.**

## Why choose Paradise for your retail POS System?

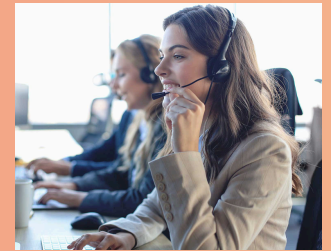

### **Easy-To-Use Interface**

Easily set up our retail POS system while streamlining training with our easy-to-use iPad interface that users are familiar with.

### **Feature-Rich and Affordable**

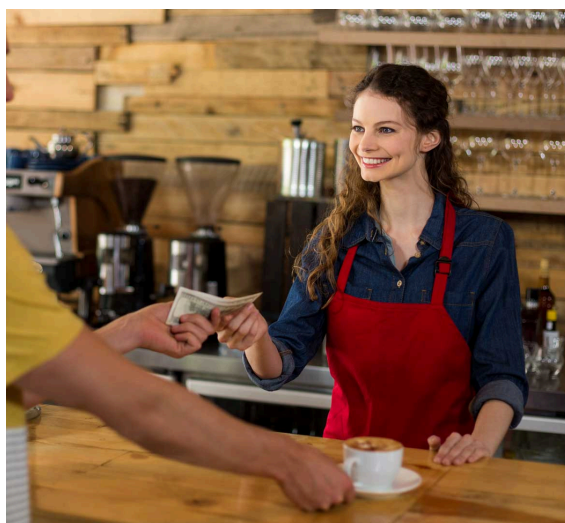

Our retail iPad POS has industry-proven features designed to meet the unique needs of your business.

### **24/7/365 U.S.-Based Support**

Our in-house tech support sets us apart from competitors, and our team is always available to assist you.

## Cash Discounting the Right Way with Dual Pricing

Cash discounting can help you control and offset some or all payment processing fees, allowing you to operate more profitably. But you must follow state regulations and card network rules to comply. The Paradise POS cash discount program is designed for compliance and to help you control payment processing costs. When a customer is ready to pay, they can choose the cash price (which applies a discount), or pay with a card and pay a slightly higher price that includes a fee to offset your processing fees.
